

A

ABO, 363
acinetobacter baumannii, 309
acute appendicitis, 76
acute myocard infarction, 138
adnexal mass, 95
adolescents, 386
age, 138
AL, 248
ALK negative, 393
ALK positive, 393
alpha-fetoprotein, 212
anaplastic lymphoma kinase, 393
anastomotic leakage, 256
anatomy, 33
anomaly, 212
antiphospholipid antibody syndrome, 355
anxiety, 190
appendectomy, 160
appendiceal neoplasm, 160
aseptic meningitis, 26
attitude, 369
autism spectrum disorders, 231

B

bacterial meningitis, 26
bariatric surgery, 40
best corrected visual acuity, 114
blood donor, 363
blood group, 363
BMD, 44
bone mineral density, 343
branch retinal vein occlusion, 114
breast cancer, 174
breast examination, 174
Breast neoplasms, 203
breech presentation, 132
Bronchiolitis, 295
burn, 62

C

CA 125 , 95
CA 72-4, 95
cadaveric study, 33
calcium, 343
callosum, 400
cardiometabolic risk factors, 386
carditis, 355
carotid artery, 33
carpal tunnel syndrome, 125
celiac disease, 369
central macular thickness, 114
child, 85
children, 343, 400

children mothers' 369
choledochus, 240
chorea, 355
cognitive function, 317
complicated acute appendicitis, 336
compression fractures, 330
contact, 280
coping styles, 90
coronary artery bypass surgery, 374
COVID-19, 280
curative resection, 301

D

DAS-28, 44
decompression, 125
degree of obesity, 386
delirium, 62
demographic distribution, 15
depression, 190, 386
diabetes risk, 165
diabetic macular edema, 349
diagnosis, 76
diffusion, 203
digital infrared transformation inductor, 218
dosimetry, 263

E

early weight loss, 182
ectopic opening, 240
education, 71
elective cesarean, 132
electrolyte disturbance, 143
embolization, 152
emergency cesarean, 132
emergency department, 143
endarterectomy, 33
endovascular treatment, 9
enhanced recovery after surgery protocol, 287
enuresis, 324
epinephrine, 295
ERAS, 287
esophagitis, 120
esophagogastric junction,
exclusive breastfeeding, 182

F

fibromyalgia syndrome, 317
fibromyalgia, 190
FINDRISC questionnaire, 165
flow-diverter stenting, 9
forearm fractures, 85

G

gastric cancer, 301
 gastric submucosal tumors, 380
 gastritis, 120
 geriatrics, 108
 granulomatous mastitis, 218
 granulosa cell tumor, 56

H

H.pylori, 343
 haloperidol, 355
 healthcare workers, 280
 healthy individual, 165
 helical tomotherapy, 263
 helicobacter pylori, 120
 hippocampal avoidance, 263
 hydroxychloroquine, 280
 hypocalcemia, 143
 hypertrophic cardiomyopathy, 49
 hypothermia, 108
 hypotonicity, 49

I

idiopathic sudden sensorineural hearing loss, 90
 ileocolic anastomosis, 256
 immigrants, 400
 immunoglobulin m, 248
 incidental aneurysm, 15
 incidental, 160
 incontinence, 324
 infant antibody, 103
 information, 287
 inhalation therapy, 295
 inherited metabolic disorders, 231
 inherited metabolic disorders, 231
 interobserver, 85
 intracranial aneurysm, 9, 15
 intraoperative monitoring, 108
 Istanbul, 363

L

laparoscopic appendectomy, 336
 laparoscopic nephrectomy, 148
 laparoscopic surgery, 40
 laparoscopy, 272
 life quality, 374
 light chain amyloidosis, 248
 liver retraction, 40

M

magnetic resonance imaging, 125, 152, 203, 400
 malnutrition, 400
 mammography, 174
 maternal antibody, 103

mean platelet volume, 317
 medication errors, 71
 minimally invasive surgical procedures, 125
 morbidity, 272
 morphometry, 400
 mortality, 26, 62, 309, 400
 myeloperoxidase, 197

N

natural course, 114
 nebulized bronchodilators, 295
 neural tube defect, 212
 neutrophil to lymphocyte ratio,
 neutrophil-to-lymphocyte ratio, 76, 248
 non-functional kidney, 148
 nursing, 287
 nutrition, 231

O

open appendectomy, 336
 osteoporosis, 44
 osteoporotic fractures, 330
 ovary, 56

P

pain severity, 190
 pain, 330
 partner violence, 190
 pediatric intensive care unit, 26
 penetrating injury, 224
 percentile charts, 182
 perforated appendicitis, 272
 peripheral vessel, 224
 pertussis, 103
 pharmacology, 71
 platelet to lymphocyte ratio, 248
 polymethyl methacrylate, 330
 pompe disease, 49
 prognosis, 15, 301
 psychiatric disorder, 62
 psychological state 369
 purse- string suture, 336

Q

quality of life, 324

R

radiological, 85
 ranibizumab, 349
 rare histological type, 301
 real-life outcome, 349
 red cell distribution width, 56

response to treatment, 218
Rh, 363
rheumatoid arthritis, 44
right hemicolectomy, 256
risk of malignancy index, 95

W

wrist, 125

S

saliva, 212
schizophrenia, 197
screening test, 212
screening, 174
seroconversion, 103
SF-36 form, 374
simple nephrectomy, 148
sleeve gastrectomy, 40
smoking, 197
SOFA score, 309
Sonoelastography, 203
spinal anesthesia, 108
spinal fractures, 330
ST-elevation, 138
stress perception, 90
subarachnoid hemorrhage, 15
subjective global assessment, 400
surgical treatment, 240
sydenham chorea, 355
systemic inflammatory response markers, 248
systemic steroid treatment, 218
T cell lymphoma, 393

T

temperament and character, 90
transgastric combined endoscopic and laparoscopic surgery, 380
triglyceride/glucose index, 165
tumor, 160
Turkey, 363

U

uric acid, 317
uterine artery, 152
uterine fibroids, 152

V

vagus nerve, 33
variant, 197
vascular injury, 224
ventilator-associated pneumonia, 309
vertebroplasty, 330
visual analog scale, 330
vitamin b12, 120
vitamin d, 343
VMAT, 263
voiding dysfunction, 324
